Any questions?

Not all couples can have babies in the same way.

These couples may still want to have a baby and there are other options open to them such as:

- ✓ Adoption.
- ✓ Surrogacy, which is when someone else has the baby for the couple.
- ✓ IVF, which is where the sperm and egg are put together by a scientist and once the egg is fertilised, it is placed into the uterus to grow.

Pregnancy and birth are the only the start of being a parent. Being a parent is a long-term commitment.
