What were your favourite subjects when you were at school?

At school I really enjoyed Maths. I liked looking at patterns in numbers and finding the right answer. I also really enjoyed Art (although I need more practise!)

What is your favourite subject to teach?

I love teaching Science. I like understanding the world around us and doing fun experiments and investigations. I enjoy seeing children make links between their learning and what they experience.

What is your favourite book and why?

My favourite book is 'Matilda' by Roald Dahl. I love this book because it's about a girl who loves learning and reading (I enjoy reading too).

What do you like best about teaching at Staplehurst?

I love teaching the children and feeling part of a community. The staff are all very friendly and supportive. The children at Staplehurst are well behaved and keen to learn. I like the huge amount of resources we have to teach with and the amount of space we can teach in too.

What did you want to be when you were younger?

When I was younger I wanted to either be a nurse or a teacher. I decided I wasn't too keen on blood but grew fonder of becoming a teacher.

What hobbies do you enjoy?

I love going on walks with my family (especially around Bedgebury or over the fields in Staplehurst). I enjoy reading and love swimming. I have recently joined a choir and have found a love for singing.

What three words would describe you?

Happy, bubbly and caring.

If you were on a desert island what two things would you take with you?

If I were on a desert island, I would take some music to listen to. I absolutely love listening to music. I would also take a phone so I could stay in contact with my loved ones and enjoy looking at photographs of them all.
